FROM WASHINGTON,

IRREGULARITIES IN THE GULF STREAM TO BE INVESTIGATED.—CONFIDENCE OF THE CONGRESSIONAL COMMITTEE.—MORE ABOUT THE NEW SILNER DOLLARS.—THE POTTER COMMITTEE GOING TO THE SEA SIDE.—MORE CIVIL SERVICE REFORM.—FARCICAL CHARACTER OF THE EXAMINATIONS.

[Special Correspondent to the Post.]

WASHINGTON, July 18th, 1878.

North Carolina and Virginia get fifteen of the thirty-seven new life saving stations authorized by Congress.

We have the news that Col. John R. Winston, heretofore a staunch Democrat, is going to run for Congress on the National ticket in Greensboro district. There is no law to prevent any man from making a fool of himself; and, on the whole we like to see Democrats enjoy their privileges in that direction.

Now comes to be the story that the vast current of the gulf stream which rounds the southern extremity of Florida and flows along our coast has neither the same velocity nor the same temperature at all times. An investigating expedition is going to look into this singular charge against the gulf stream. If any irregularities are found the Democratic press will charge them to the corruptions of the Republican party. The National Republican Congressional Committee are figuring on a gain of one member of Congress in North Carolina. Their figures are correct, if the Democrats can only be prevented from beating us on the count. One thing is certain, and that is that there will be a Republican canvass in South Carolina, and a successful one, unless the rifle clubs resort to the murderous tactics of 1876.

In my last letter, I spoke of the immense number of the new silver dollars now lying idle in the treasury vaults. The Secretary of the Treasury is going to try and shove some of them off his hands. To this end he offers to send them to any national bank, free of carriage charge, to use in the place of one and two dollar notes. That is really the commencement of specie payments. Officially the Secretary announces that under the law he will not pay out gold for greenbacks until January first. No one wants the silver dollars. They are already a nuisance. The Department clerks are groaning over a rumor that they are to be paid off at the end of this month in silver dollars. It is probably only a rumor, but it serves to show the feeling existing regarding the use of the silver dollar among a class who have up to this time seen most of them.

The Potter investigation has assumed a new phase. The latest report is to the effect that the committee may not report until next March. This means that the Democrats intend to keep up a seeming investigation all summer. No formal report will be made and the Republicans cannot, therefore, refute it. During this time the Democratic press will continue to howl about frauds in Louisiana and Florida. It is a virtual confession of defeat. Meanwhile the committee has been put in care of Gen. B. F. Butler. He will call all of the "visiting statesmen" before the committee, at Atlantic City, near Jersey. This means that the United States will pay the board bills of the members of the committee and such witnesses as are called, for an indefinite time, at a fashionable watering place. There is nothing like Democratic economy, when it once gets loose. All of the representative Democratic "visiting statesmen" will be called. The list will include Representative Morrison, ex-Senator Trumbull and ex-Governor Palmer, of Illinoi; ex-Governor Bigler, of Pennsylvania; Senator Lamar, of Mississippi, and others. Gen. Butler has notified the committee that he intends to ask a great many questions of Gen. Garfield, of Ohio. He will be a good subject for Mr. Butler to cross-examine. There will be a lively time and it will not all be on Gen. Butler's side either.

Civil Service Reform has been having a grand jurance in the "Great National German Asylum," formerly known as the Department of the Interior. About 275 candidates were examined. Many of them were ladies. One of them fainted on account of the heat and her great mental anxiety. Some of those who were examined came from as far away as St. Louis; and most of them are now waiting, on expense, to learn the result. It is time the country knew the size and meanness of the farce, a better phrase is—contemptible fraud, of these so called examinations. One recently occurred in the War Department. Over 300 men were examined to fill thirty places. It is openly stated here that a special list was made out before examinations began from which candidates were to be selected. It is charged that the two candidates who had the highest percentage did not get places, and men who are notoriously wanting in ability to make good clerks did get places. The same thing occurred in the German Asylum. Politicians, Senators, and others ask the Secretaries for places. "Your friend must go before the board," is the common reply. In the meanwhile a list is made of the Senator from Georgia and the Representative from Texas, and so on, who must be provided for. The day finally comes, and the examinations are made. The special list passes. When inquiry is made by some of the friends of the victims, they get a shrug of the shoulders and the reply, "Was he not before the board? We have done all we could. If he did not pass it is not our fault, nor is it yours." The long list of applicants is cleaned off the slate, ready for another batch, and another repetition of the stupid swindle in the name of civil service reform. Another phase of the same swindle is the discharge of good clerks because of want of appropriations.—The truth is their places are quietly filled by new appointments. This is being done every day in the Great National German Asylum.

One might make the remark, without giving offence to a Washingtonian, that it is hot. The most popular evening costume, just now, is a fan. One need not go to the National Medical Museum to study bones, and things. It can be done in the evening on the side walks door steps, any where in the city. It is not so hot into eight to ten degrees as it was two years ago, and yet there are far more complaints about the effects of the high temperature. Col. "Bob." Ingersoll need not waste his time in trying to prove there is no future hot place. It will take something more than threats of heat to scare the people of this city hereafter.

H. C. F.

Somebody will find red hair woven into a piece of Ingrain carpet one of these days. Libby Barkley, while working at a loom in Thompsonville, Conn., let the machinery get hold of her long curls and in a twinkling they were absorbed in the carpet.

More legislation in favor of the money class. The three-cent piece is to be retired from circulation, and soon a poor man can't cheat the contribution box out of seven cents, and delude the congregation with a ten cent look of Christian charity.—Brookville Democrat.

CITY ITEMS.

See ad. of Civil and Mechanical Engineering.

See ad. for proposals for the improvement of Cape Fear river.

See ad. of John D. Taylor, addressed to the voters of New Hanover county.

Our ticket for the legislature is both very modest young men, Dr. Scott can make a speech if you crowd him, and the other candidate can waddell around considerably. They will be undoubtedly elected by large majorities.

Our friend Cutler's inexperance in politics should be a sufficient excuse to his Democratic friends for the blunder he has made in revealing their plans so soon. Youth should excuse the poor boy.

FOR THE POST.

There was a man named Old
Whose contract was left in the cold
By a red-headed "Paddy"
The son of his daddy
And an alien who any office did hold.

Has our friend Cutler forgotten the corruption of the sheriff's of Brunswick and Columbus counties, and the school money thief, Pool, Democratic Superintendent of Public Instructions of North Carolina.

There are to-day about fifty Independent Democratic candidates for the legislature in North Carolina. Will our young friend Cutler take notice—this is all owing to the corruption of the Democratic leaders.

"Register," says friend Cutler to his Democratic friends, "and we can elect Democrats to the county offices on account of the division we have created in the Republican ranks, through Garrell and the other Independents,"

Take warning Republicans a vote for Garrell is a vote for a Democrat. Mr. Garrell can't be elected himself, but he is going to try and get Republican votes enough so the regular Democrat can be elected over the regular Republican nominee,

The chairman of the Democratic County Committee, calls upon Democrats to register, and he says they can do something handsome for themselves at this election if they will, through the division of the Republican party. We call upon Republicans to take warning, and not allow Democratic money used by Garrell and McQuigg to defeat their party.

The Democrats pat E. H. McQuigg on the back and tell him that he is a great man, for the purpose of keeping him in the field as the bolters candidate for Clerk of the Superior Court, all for the purpose of dividing the Republicans and electing a Democratic clerk.

THE DEMOCRATIC PROGRAM.—The Democrats intend to try and keep the bolters in the field, and on the day of election to bring out a straight Democratic ticket. They think the bolters can get enough votes from the Republican party to insure the election of the Democratic candidates. Republicans will you allow it to be so?

Friend Cutler, we will make you a small bet, if you really desire to test which party has the most corrupt leaders. We will bet you that for every corrupt man, or for every official thief you point out in the Republican party, we will point out ten in the Democratic party; and for every dollar stolen by Republicans, we can show by official record that your party, the Democratic reform party has stolen one hundred, and we dare you to the test.

The North Carolina Railroad Company and the management of its road, has been getting worse every year since Col. W. A. Smith left it. They have now taken the old second-class cars and are actually running them as first-class. Who ever heard of such a thing as charging a passenger first-class fare for riding in an old second-class car. We advise persons to go around by Weldon, or up by Hamlet. We think they will find either one of those more pleasant than going up from Goldsboro on the meanest conducted road in the state.

We speak knowingly when we assert that Hall's Vegetable Sicilian Hair Renewer is the best article of the kind sold on the American Continent, Personal trial has demonstrated this, and the article is an elegant and cleanly one, without which we think no toilet complete. Messrs. Johnston, Holloway & Co., 602 Arch street, Philadelphia, are the agents for the article, and when our Philadelphia friends return from Cape May, they should certainly procure some of it. We know of no such article extant for the hair, and thus speak in such decided and emphatic terms.—Ocean Items, Cape May, N. J. 21

Vote the regular ticket.

Vote for party and not men.

Bolters are on the decrease.

Stand by your Republican guns.

True to your party, true to your God.

HOT.—Politics are getting very hot.

Register whether you want to vote or not.

A light rain visited these parts on yesterday.

Where did Garrell get his bank? It must be Democratic.

See ad. for Proposals for the construction of Life-Saving Stations.

Cowen, of Pender, has an Arm strong to deal with for the legislature.

Corn cheap and plentiful in market, but corn whiskey is still very high.

Youth and inexperience together, are bad qualities for a political leader.

John F. Garrell will continue to be a Democrat if he is not elected sheriff.

Our young friend Cutlar is too much of a youth to be a successful adviser.

Democratic money seems to be plentiful the way Garrell, the bolter, handles it.

Street cars are running regular, and will continue to do so notwithstanding the hot weather.

A Cow-an and an Arm(that is)strong, are the candidates for legislative honors in Pender county.

See ad. of the Excelsior Manufacturing Company, Chicago, Illinois, headed, "Wanted."

Register. Everyman in the state should see that their names are on the registration books.

The Republican convention has nominated a Republican ticket, and Republicans will sustain it.

W. P. Canaday offers very cool houses for sale, and if you need ice he will furnish you that also.

Heaton had a fight in the First Ward Monday night last. We are afraid he will loose his Bishopric if he keeps on.

John F. Garrell has opened an office in this city for the purpose of defeating the nominees of the Republican party.

Has Mayor Fishblate joined the bolters? We understand he refused an appeal from his judgment to a Republican.

We advise our young friend Cutler to examine his own political glass-house before he commences to throw stones at others.

If E. H. McQuigg is a Democrat, let him say so. If he is a Republican he should support the Republican nominations.

The Republicans are not to be bought and sold, Mr. Garrell as you seem to think, they vote from principle and not for money.

A Taylor would like to make a Superior Coat (Court Clerk) for New Hanover county, but the Van-am ragging against him.

The question now is, shall Democrats or Republicans be elected to the county offices? A vote for a bolter is a vote for the Democrats.

The regular ticket of the Republican party is published in the POST, and every Republican in the county should and will vote for it.

ATTENTION REPUBLICANS!—Stop and think before you vote for an Independent. For a vote for a bolter is a vote for the Democrats.

If our friend Cutler is going into politics in good earnest, we advise him to put his boxing gloves on or he will get his knuckles skinned.

While the editors have Old-ham and Fish(blate) they can Foster a reasonable amount of "coal" if it is hot, provided the Hills are not too Savage looking for the Fowl(er)s to fly on.

The Democrats expect to elect a Clerk of the Superior Court, and they will succeed if the bolter, E. H. McQuigg, is supported by Republicans.

Is Mr. John F. Garrell the Democratic candidate for sheriff? It is rumored that he is using Democratic money to divide the Republican party.

Our friend Cutler has forgotten about the thousands of thieves in the Democratic party who are to-day leaders, when he wrote his Democratic address.

Republicans, read the address of the chairman of the Democratic Committee and you will see that they expect to elect Democrats to office in place of the bolters.

CITY BRIEFS.—Our excellent Mayor would do well to consult a little the quarantine laws, both of the state and the United States. When a vessel has passed the quarantine officer at Smithville it is the best possible evidence that it is safe for it to come to the city. ——The Spanish barque, Cabiecos, having laid a long time at our wharves took water, and was reported in a sinking condition, on account of the open seams, caused by long exposure to the sun is our harbor, but is now all right. ——There is to be an extra police for election day. Good. ——The republicans are getting orderly and sensible in New Hanover. ——A poor old man from Duplin, 70 years old, got hurt by being hit by a railroad train but is cared for by the city authorities. ——The Grays of Charlotte are coming to the city this week. ——And also, the large colored excursion from Columbia. ——Mr. Donald MacRae has received $1,000 of the Peabody fund, for equal distribution among the four public schools of the city, colored and white. ——Colonel Taylor is a candidate for election as Clerk of the Superior Court for this county. No go, but Colonel T. is nevertheless a pleasant officer. ——If there is one railroad towards which the people of Wilmington feel kindly it is the Wilmington and Weldon, but why wont they fix the crossing on Nutt street so that all the up country people, coming in by the Central Railway get their liver and lights shaken out whenever they come to town? *Verbum sat.* ——There never was a more lively summer in Wilmington than this, even in the very height of the summer solstice—excursions down the river and to the sounds are going on all the time.——Hon. Geo. Davis and family have gone to the Virginia Springs.——There is not much rice planted on our waste lands this year.——Vegetables are very cheap in our market this year, and grapes have appeared.——To flourish a pistol and not shoot signifies no more than it did when two brave men in Arkansas fell to fighting and each getting behind a convenient tree shot all the bark off from both—nothing more——Mr. O'Brien's store took fire Friday morning, but the damage was light, although Mr. O'Brien came near being suffocated.——The Spanish brig Santona, lying in quarantine near the Dram Tree was provisioned on Friday under the direction of the Collector of the Port——The Rev. Dr. Patterson in consequence of continued illness goes north for rest and recreation for three months, his departure being hastened by information that a relative of his lies very low in Boston.——Jesse J. Cassidey, Esq., left yesterday morning on the Benfactor *en route* for Peoria Ill.

THE WILMINGTON POST.

Editor and Proprietor.

WILMINGTON, N. C.,

SUNDAY MORNING, JULY 21, 1878.

SHERIFF MANNING.

Our regular nominee for sheriff, Gen. S. H. Manning, and the other regular nominees of the Republican party are out canvassing the county. The regular ticket, headed by Gen. S. H. Manning, will be elected by about 1,400 majority.

THE RALEIGH REGISTER.

The Raleigh *Register* says that the state executive committee has distranchised the Republican party. Thh *Register* must have known that it was not so, because the editor lives at Raleigh and was in the city the day the committee met. So far from disfranchising the party, the committee passed a resolution instructing the chairman to issue an address to the Republicans of the state to keep up their party organizations, and to stand firm by party nominations, when any county or district saw proper to hold a convention and make a ticket. The party organization of the state should be complete and in 1880 we will carry the state by a handsome majority.

Somebody has confounded the senses of our morning contemporary by asking it if the sentence "Are they any good?" is grammatical, and so we have half a column of speculation. As to the elegance of the sentence there is not much to be said but it would have been evident to Lindley Murray, if he had been about, that "they" is the subject of "are" and that "good" is a noun, and follows *are* as nouns do neuter verbs, and that "any" as an adjective qualifies "good" which is a noun. If our neighbor had taken the trouble to look at Psalms, chap. 4th., verse 6th., he would have been enlightened on the subject.

REAPING THE WHIRLWIND.

Sowing to the wind and reaping the whirlwind is a figure of speech, and expresses a general truth now as it did when first it was uttered. As the man soweth so shall he reap. If he sows well he reaps well. In other words no human being can escape the effects or consequences of his conduct upon his personal character. If he commits an absolute wrong, even if it is not known to any person but himself, the black load is constantly upon his shoulders; his mind is haunted, his conscience tortured, and the hideous fact is constantly before his eyes. And the effects of his wrong acts usually redound upon himself in disasters and disgrace.—Taking it for granted that it is as true in morals as it is in physics that an individual cannot violate one of the laws of his being—one of the conditions of his existence—without suffering from it, we at once conclude that what is true of an individual is true of a community. And it always has been that cities and nations and peoples have disappeared from the face of the earth, or have sunk from opulence to wretchedness, from civilization to barbarism, from the arrogance of power to the abjectness of a miserable inferiority and even slavery in consequence of their acts.

The Democratic party of the south from Delaware to Texas, is in a volcanic condition. Their atrocious proceedings during the process of their elevation to power, their infamous invasions of all the principles of popular government, their open and undisguised violation of the provisions of organic and statute law, the overturning and suppression of unquestioned Republican majorities by the most execrable means, and their detestable legislation and exercise of executive power, are reacting upon their organization and a process of disintegration is going on in nearly every portion of their party. Their bull-dozing, their ku klux, the rifle-clubs and like things have educated a class of turbulent malcontents inside the party on the one hand, while the better thinking class, disgusted at the enormous rascalities which they have observed in their administrations, which they assisted in creating, are in a state of mind to revolt whenever the opportunity may present itself. Dissatisfactions, personal animosities of the bitterest sort, internal broils, and open revolts are already arising and lifting their complaining voices in agitations and recriminations. This condition of things among the southern Democracy is the penalty which they are suffering for their offences and crimes against society and their violation of those immutable principles which lie at the basis of our government and the welfare of society.

Long suffering and patient as the better class of the southern whites have been at the enormities of their present rulers, there is a limit to their endurance. It is not forever that a class of so much weight and volume will silently acquiesce in those tyrannies which are a constant menace to the laws of the land, to civilization and the general welfare of the people. There is a longing among the class of which we speak for a more reasonable state of things. They see nothing before them but a dreary and hopeless struggle for prosperity if the present state of things continues. They desire an exemption from the narrowness of the southern Democratic policy, an emancipation from the embarrassments which that policy imposes upon them, and a chance to act their part as equals with other free communities of the civilized world in the path towards progress and elevation.

Servia to be independent, with conditions.

Bosnia to be independent on conditions.

The following is the basis of the government of Bulgaria, which applies also to other provinces:

ART. V.—The following shall form the basis of the public law of Bulgaria: Distinction of religious belief or confession shall not operate against any one as a reason of exclusion or incapacity in what concern enjoyment of political rights, admission to public employment, functions, or honors, or the exercise of the different professions and industries. Liberty of public profession of all the returned population of Bulgaria as well as to strangers. No trammels shall be imposed on the hierarchic organization of different communions or their relations with their spiritual chiefs.

THE DANUBE.

ART. L.—The fortifications on the Danube from the Iron Gates to the mouth shall be razed. No ships of war shall navigate the Danube downward from the Iron Gates, Guard ships of the powers at the mouth of the river may, however, ascend to Galatz.

ART. LI.—The Commission of the Danube, at which Roumania and Servia shall be represented, is maintained; it will exercise its powers henceforth as far as Galatz, with complete independence of territorial authority, and all arrangements relative to its rights are confirmed.

ARTS. LII. and LIII.—Contain further relations in regard to the Danube Commission.

ART. LIV.—The work of removal of the obstacles which the Iron Gates and cataracts cause to the navigation of the Danube is intrusted to Austria-Hungary.

RELIGIOUS LIBERTY.

ART. LVII.—The Porte having expressed willingness to maintain the principle of religious liberty, and give it the widest sphere, the contracting parties take cognizance of this spontaneous declaration. In every part of the Empire difference of religion should not be the motive of unfitness in anything relating to civil and political rights, admission to public offices, duties and honors, and the exercise of all the professions and industries. Every one should be admitted, without distinction of religion, to give evidence before the the tribunals. The practice of all religions should be entirely free. No impediment should be offered to the hierarchical organization of different communions or their spiritual chiefs. Ecclesiastics traveling in European and and Asiatic Turkey shall enjoy the the same privileges. The right of official protection is accorded to agents of the powers in Turkey and the holy places, with their religious and charitable establishments. The rights conceded to France are expressly reserved, it being understood that the statu quo with respect to the holy places shall not be seriously affected in any way. The monks of Mount Athos, of whatever nationality, shall maintain their possessions and enjoy, without exception, full equality of rights and prerogatives.

Brother Cuttar, the sweet singer of Democracy has tuned his lyre and taken upon himself the duties of county Boss. Bro, C. evidently feels that coming events are big with something and he therefore toots his fog-horn to the democratic party and tells them "It looks like there was nothing at stake," which is one of those things that anybody can find out at the close of the polls on election day. As a democratic class-leader he is impressed with the depravity of the republican party, and says that the corruption of the republican leaders has disgusted people, and their party is rapidly going to pieces. This tender and touching original exotic of DuBrutz's is a crown to an illustrious life in the interests of the Bourbons, and his effort should entitle him to the uncertainties of the next run for Congress. The republicans had some respectability when DuBrutz drew his salary at the city hall as regularly as a chronometer, but under the saddening influences of time those dollars of our republican daddies have passed away, and some other little office from the other side would be mightily helping in watermelon time.

JOHN F. GARRELL.

Garrell, poor fellow finds it hard to ride the fence. When he meets a Democrat he tells him he will not have a colored deputy in his office if he is elected sheriff, and when he meets a colored Republican he tells him he will not have a white employee around the court house if he is elected. What the poor fellow is to do if he should be elected we know not. But there is no chance for his election, and, therefore, he will be saved from the unpleasant position in which he is try to place himself.

They say at Long Branch that Secretary Sherman nominated Gen. Grant there yesterday, and "by acclamation," as it were. Perhaps, but it has always been understood that the Secretary's first choice was a gentleman by the name of Sherman.—*N. Y. Herald.*

The country will be unitely satisfied with the "Gentlemen by the name of Sherman."

TO OUR REPUBLICAN FRIENDS.

In about one week after this issue of the Post the people of the state will be called upon in the exercise of their rights as citizens to vote for three Judges of the Supreme Court and three of the Superior Court. Also for members of both branches of the General Assembly, and for county officers. The Republicans have put out no candidates for the Supreme Court, and therefore each person will be left to act his pleasure in voting for that special part. In some of the districts there are more than one candidate for Superior Court Judge, and in those cases, unless there is a Republican candidate in the field, a Republican will naturally vote for whom he considers the best man.

There is great irregularity too in some of the counties as to members of the legislature and county officers. In the strong Republican counties like Wake, New Hanover, Craven, Edgecombe, Halifax, Warren, &c., there are bolting candidates. We advise our friends in all the strong Republican counties to vote, as a rule, the clean Republican ticket, as we have no doubt they will do. It is especially the duty of Republicans to get as many members of the legislature as they can from their strong counties. Our information from most of the naturally Republican counties is that for the most part the regular ticket will carry. It will be exceedingly unfortunate if we should lose for any frivolous reason any member from the strong Republican counties.

We especially urge our friends in Brunswick and Bladen to save their Senator as they are able to do if they are united. Mr. Asa Ross, the candidate for Senator is strong in the county of Brunswick where he lives, and will carry more than the full Republican vote. He at present holds the office of Register of Deeds for his county, and has performed the duties of that office to the satisfaction of everybody. He is an intelligent and energetic citizen, a true Republican and will make a good Senator. We ask our Bladen friends to give him a cordial and generous support, and roll up for him their old majority of at least 250. John Newell, colored, the candidate for Bladen has once been a member of the legislature, and will carry the solid Republican vote. The candidate for the House in Brunswick is that old veteran John H. Brooks, who has been a member of the legislature from that county twice, and will be overwhelmingly elected.

For Pender, the Republican candidate for the House is Mr. William E. Cowan, a prominent merchant at Burgaw, and well known in that county where he was born. He will make a most excellent member.

Let every Republican voter go to the polls, and by his acts speak for his country, and our state. The Democrats are confused and disordered everywhere, and are breaking down in consequence of their bad acts. The better part of that party are dissatisfied with the course of its managers. If all the elements in opposition to the Bourbon Raleigh ring and its adjuncts and tools in the counties will act at the pollings as they ought we will see a legislature which will be an honor to the state.

GOOD SOUTHERN DEMOCRATIC DOCTRINE.

Below are a few gems of these southern saints who believe in suppressing majorities. They are sweet morsels such are rolled under the tongue of patriots who are preaching "reform." First, hear the Raleigh *News*:

They (the Republican majority of the second judicial district) should, however, note one fact as they go along, that the white people of the south having, from the first, *determined not to submit to negro domination*, have, in every southern state, *thrown off the yoke of negro rule*, and the attempt to re-establish, that sort of thing now, even in a single judicial district in North Carolina *will most ignominiously fail.*

Secondly, hear the Augusta (Ga.) *Chronicle* when speaking of the "Democratic usages" as applied to districts in which "the negroes have a majority." Read this saintly language:

The effects that will follow cannot be exaggerated. In place of a solid Democratic representation in Congress, the state may be represented in part by four or five Independents. This apprehension is not groundless. *In many of the districts the negroes have a majority, and the only way in which this majority can be overcome is by a strict adherence to Democratic usages.*

Thirdly, hear what one Major White has to say at a meeting of himself and other Democratic saints out in Arkansas. There is an *abandon* about this which is charming:

We come not now to lead but to drive. We come not to persuade but to intimidate; the colored men may out number us, but they cannot out vote us. We care not for Congress, we care not for Hayes.

Fourthly, one Mr. L. E. Martin, another Arkansas saint, at the same meeting it appears, sang forth in the following patriotic strain:

The Radicals have the numbers, but we have the means. They may out vote us, but we can out count them. In short, though the heavens fall, though the whole of New England shed tears over the Radical defeat, though every Black Republican sheet in the land becomes a blaze of double-leaded, high-headed columns, over what they may see proper to term an outrage, *yet will we not falter.*

What Thomas Jefferson may have thought of this phase of Democracy we are not about to conjecture. But it is our opinion that it ought to be interesting reading to those northern flunkies who have been descanting upon the virtues of the southern Democracy and pooh-poohing at the bloody shirt.

SOMETHING TO THINK OF.

Next after the great cardinal doctrine of the southern Democrats, their principal staple in trade is the "oppression" of the federal government and the heavy taxes. So while the old secession doctrines are to southern Democratic politics what cotton is to southern business, the "oppressive taxes" and the "bayonet rule" &c', cover in politics what naval stores, corn, the cereals, lumber, &c., does in business. No part of the Turkish dominions, if we may believe the county papers, was so badly "oppressed" as are the reconstructed states.

Now, let us suppose that the Confederate cause had been successful and Jeff. Davis were President, as he would have been to the end of his life. There would have been all the expenses of the Confederate government to support—a President, the Departments, foreign envoys and no end of civil officials, an army of at least 50,000 men, a Navy, which is always expensive; and what would have been worse, all the Confederate and state debts. Nobody knows how many bonds or how much currency the Confederate government had issued. Their debt at the collapse was undoubtedly twice as much as that of the United States ever was, say, $5,000,000,000. Then there would have been all the state Confederate debts. The North Carolina state debt, created during the war was more than $18,000,000 as reported by the state Treasurer, at the close of the war, or in 1866. The interest on that amount for twelve years down to the present time would have amounted to $16,280,000, at 8 per cent., which added to the principal would have made a state Confederate debt of $34,280,000 which added to the ante-bellum debt would have made a state debt of $49,280,000, or a good deal more than the present state debt is. Everybody who is informed on the subject knows that we are stating the facts substantially as they are.

Can anybody explain how the southern states are any worse off than they would have been if the Confederacy had succeeded? The other states were probably as badly off as North Carolina, although we have not the figures at hand. So on the southern seceding states alone would have rested the burden of the Confederate government debt and the Confederate state debt, and ante-bellum state debt. The seceding states now pay about one quarter of the Internal Revenue taxes of the United States. But in case the Confederacy had succeeded they alone would have been obliged to pay or carry at least twice as much as the present national debt and the state debt. Would not there have been tithing men in herds seizing the last bushel of corn? Would not there have been swarms upon swarms of Confederate Internal Revenue officers? Every tax payer in the south is less "oppressed" by taxes than he would have been if the Democrats of 1861, Jefferson Davis & Co., had succeeded.

The significance of the speech of Jeff Davis is apparent when we see how it was received in the South. Commenting on the speech, and referring to Davis as the 'patriot statesman, the New Orleans *Democrat* asks. "But to whom will an impartial generation award the palm of honor, patriotism, and statesmanship? Will posterity confirm the verdict of the triumphant North? Or will it declare that the head of the Confederacy who led his countrymen through one of the most heroic struggles in the annals of mankind, in defense of great principles which he believed to be right, and which the American people are now returning to, was the true patriot, and that the real traitors to the Constitution, and enemies of the republic were Grant and the demagogues and conspirators who swarmed in Congress on the fall of the Confederacy." This is putting the issue squarely. Are the people of the Union ready for the question? Grant and his soldiers were traitors, and the statesmen who served the Union cause were conspirators. Jeff is a patriotic statesman, and Lincoln was a traitor. This is conciliation. These are the utterances of the men who, through an alliance with the Democratic party, hope soon to control the country. They make the issue and boast of the return of the country to the secession platform of 1861. When the people are ready to admit that Grant was the traitor, and Jeff Davis the patriot, the triumph of these Southern leaders will come. These leaders no longer conceal their principles, but feeling sure of victory, boast of what they will do. The Union people of the country, Democratic as well as Republican, have full warning of the purpose of these men, and the most explicit declarations as to the spirit that controls them. And they know the consequence of giving traitors opportunity and time to perfect their plans.

It is stated in the Scientific American that probably half the vinegar now sold in our cities is rank poison. A Massachusetts chemist who analyzed twelve packages of pickles put up by twelve different wholesale dealers found copper in ten of them.

What does beer sell for in Chicago? Two for five cents. Whisky cheap. Come up.

The party situation in Wisconsin is getting mixed. The Democrats invited the Greenbackers into their party, but, in violation of all rules of hospitality, the latter have taken complete possession of the premises and turned the Democrats out neck and crop. The Democrats are indignant and declare that the are the dog, and refuse to be waggled by the Greenback tail. The Republicans take the situation complacently, and will score a rousing victory in the coming election.

Gen. Butler's Proposal.

The bill introduced by Gen. Butler June 10th, and referred to the Committee on Public Lands, is intended for the relief of the industrial classes, and to carry out the principles heretofore advocated by him in a speech in the House. The design is to settle persons on public lands around the western military posts to supply them with arms to protect themselves against hostile Indians, and thus encourage white settlements, and always have an efficient militia to protect emigrants and chastise savage depredators. Gen. Butler says the accomplishment of this scheme, to the extent desired, would cost $4,250,000, to be expended during a series of years, as the increase of armed settlements should require, and that such protection would relatively decrease the sums now spent for the regular army, and afford protection to settlers.

A New Flying Machine.

The first open air exhibition of Professor C. F. Ritchell's flying machine was conducted at Hartford, Conn., on Wednesday afternoon, June 12th. It went up to a height of fully two hundred and fifty feet, past the spire of the Colt Memorial Church, and sailed off until over the Connecticut river, the operator meanwhile exhibiting his power to change its latitude and direction at will.

When he ascended there was but little wind blowing, and the machine appeared to be under perfect control, but gradually a breeze sprang up, and it was deemed safest to make a speedy return, as there were indications in the sky of a gathering storm. The machine turned and made its way back in the teeth of the wind until directly over the ball ground whence it had ascended, and then alighted within a few feet of the point from which it had started.—*Scientific American.*

Henry Clay was nominated for President by the Whigs in their state convention and mass meetings and by the party organs in 1842, two years before the election, Excitement was so high in his favor, that if the election had occurred in the fall of that year, he would have been elected by an overwhelming majority. As it was he was beaten by a man comparatively unknown and in every way his inferior. The result was wittily accounted for by the illustration of the man who took a running start to jump a ditch, but run so far that he was so broken down when he reached the ditch, that he could'nt jump it. Conventions engaged in the useless work of indorsing or nominating Presidential candidates now might make a note of this and save themselves that trouble.—*St. Louis Journal.*

The Republican Legislature of 1868 for the first time in the history of the state gave to the people the right of township government and of electing their township officers. In 1870 the Democratic party through corruption and false promises got possession of the government and have held it ever since. In that time property of every kind has depreciated. They have driven emigration, capital and trade from the country; they have broken down the homestead and bankrupted and impoverished the people; they have destroyed local government, taken from the people the right of self-government, and the tax payer to day has no more right to say who shall control the county government and the finances than a Pasha of Turkey. * * *

"Mary, my love, do you remember the text this morning?" "No, pa, I never can remember the text; I have such a bad memory." "By the way, did you notice Susan Brown?" joined in Mary's mother. "Oh yes, what a fright! She had on her last year's bonnet done up, a pea-green silk, a black mantilla, brown boots, an imitation of Honiton collar, a lava bracelet, her old earrings, and such a fan!" Well, my dear, your memory is certainly bad."—*Ex.*

Bee stings are now said to be a good remedy for rheumatism. As the bees are to supply the remedy, perhaps it would be well enough to see that they don't put the dose in the wrong place in the hurry of the moment. Bees are sometimes very impulsive. — *Bridgeport Standard.*

THE WILMINGTON POST,

WILMINGTON, N. C.,

SUNDAY MORNING, JULY 21, 1878

The Political Thermometer in the Mountains.

[Special Correspondent to the POST.]

ASHEVILLE, N. C., July 12, 1878.

The fermentation in the politicel maelstrom at this point exceeds anything of the kind witnessed since the war. The Republicans have no candidates in the field, and look on complacently at this household combat—the fight among the Greeks. It is a one sided struggle for office, and the respective candidates for the same position do not hesitate to call each other hard names and resurrect from the buried past social and political records, that would appear all the better with a heavy coat of moral veneering. It is a pitiable sight to see the chivalry—the wealth and intelligence—flinging mud, but such is the case. It is but another illustration of the depravity of human nature, even though that nature is surrounded by the rarified atmosphere that envelopes the great "unwashed Democracy."

A few weeks since their delegates from this county and Madison assembled at Alexander's, twelve miles below here, for the purpose of nominating a candidate for state Senator. Madison was fairly entitle to the nominee, and the majority of the committee appointed to make the selection so decided; but the Buncombe delegation, under the leadership of the jackass rabbit that edits (?) the Citizen, is tremendously opposed this simple act of justice, and insisted on nominating one of their two representative men—the egotistical Johnston or the pedantic Merrimon. The Madison delegation declined to submit to such treatment, and their leader, a man named Rannion, waved his hat aloft and exclaimed, "Get to your tents, O, Israel!" The delegation then withdrew and the assemblage dispersed without coming to a vote.

Subsequently they reassembled at the same place and lugged in T. F. Davidson as a compromise between Anderson and Gudger the two aspirants for the nomination. Davidson is a young gaseous lawyer of this place, but a decided improvement on Merrimon and Johnston.

Their nominations for the lower House are M. E. Carter and Nat. Atkinson, two of the most unpopular men in the county. While the former has a bad record, the latter has a bad countenance. I never heard of Atkinson doing anything really bad, and of course he is not responsible for the niggardly manner in which nature has treated *him*; but mankind will judge each other by facial indications, and his phiz is a bad electioneering card.

For Judge of the District they have nominated one J. C. L. Gudger, a second-rate lawyer of Waynesville. He has about as much dignity as a city boot-black, and would put a convocation of two boys to the blush as their presiding officer. He has an opponent in the person of Wm. M. Cocke, one of the same political household, and a permanent lawyer of this place. Capt. Cocke is a gentleman by birth, education, and life-time habit. He has the esteem of all who know him, and is entirely devoid of all bitterness towards those who see proper to disagree with him politically. Honest beyond question, charitable to the full extent of his means, with an unswerving rectitude of purpose, his elevation to the Bench would be a grand stride toward that purification so sadly needed in the so-called "Halls of Justice." He is heartily supported by all the Republicans in the West, and has a strong backing from his own party. He will receive a large majority here, and if our friends in the East will sustain him, the overthrow of Gudger is certain.

An Astonish'ng Fact.

A large proportion of the American people are to-day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flowers. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western continent.

People are getting acquainted—and those who are not ought to be—with the wonderful merits of that great American Remedy, the

MEXICAN

Mustang Liniment,

FOR MAN AND BEAST.

This liniment very naturally originated in America, where Nature provides in her laboratory such surprising antidotes for the maladies of her children. Its fame has been spreading for 25 years, until now it encircles the habitable globe.

The Mexican Mustang Liniment is a matchless remedy for all external ailments of man and beast.

To stock owners and farmers it is invaluable.

A single bottle often saves a human life or restores the usefulness of an excellent horse, ox, cow, or sheep.

It cures foot-rot, hoof-all, hollow horn, grub, screw-worm, shoulder-rot, mange, the bites and stings of poisonous reptiles and insects, and every such drawback to stock breeding and bush life.

It cures every external trouble of horses, such as lameness, scratches, swinny, sprains, founder, wind-gall, ring-bone, etc., etc.

The Mexican Mustang Liniment is the quickest cure in the world for accidents occurring in the family; in the absence of a physician, such as burns, scalds, sprains, cuts, etc., and for rheumatism, and stiffness engendered by exposure, Particularly valuable to Miners.

It is the cheapest remedy in the world, for it penetrates the muscle to the bone, and a single application is generally sufficient to cure.

Mexican Mustang Liniment is put up in three sizes of bottles, the larger ones being proportionately much the cheapest. Sold everywhere.

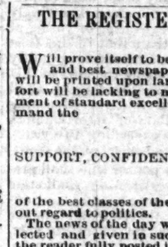
Ayer's

Cherry Pectoral



For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

The reputation it has attained, in consequence of the marvellous cures it has produced during the last half century, is a sufficient assurance to the public that it will continue to realize the happiest results that can be desired. In almost every section of country there are persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. All who have tried it acknowledge its superiority; and where its virtues are known, no one hesitates as to what medicine to employ to relieve the distress and suffering peculiar to pulmonary affections. CHERRY PECTORAL always affords instant relief, and performs rapid cures of the milder varieties of bronchial disorder, as well as the more formidable diseases of the lungs.

As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of Childhood, it is invaluable; for, by its timely use, multitudes are rescued and restored to health.

This medicine gains friends at every trial, as the cures it is constantly producing are too remarkable to be forgotten. No family should be without it, and those who have once used it never will.

Eminent Physicians throughout the country prescribe it, and Clergymen often recommend it from their knowledge of its effects.

Orville College. A Novel. By Mrs. Henry Wood, author of "East Lynne," "Edina," etc. Published by T. B. Peterson & Brothers, Philadelphia, Pa. One volume, paper cover—price fifty cents. For sale by P. Heinsberger.

Aunt Patty's Scrap Bag, by Mrs. Caroline Lee Hentz, with illustrations by Darley, is published this day by T. B. Peterson & Brothers, Philadelphia, and makes the twentieth volume issued of "Peterson's Dollar Series of New and Good Books," which are the largest, the best, the handsomest, as well as the most popular and cheapest series of books ever published and sold at one dollar each, for they are as large and as handsome as any books issued at $1.75 and $2.00 each. This gifted and popular writer, Mrs. Caroline Lee Hentz, has written so many good books, that it would be a thankless task to compare the present fascinating story with one of her charming literary efforts. It may in justice, however, be said, that "Aunt Patty's Scrap Bag" is one of the purest, most absorbing, and best told stories in the whole range of American literature. The plot is contrived and worked out with rare artistic ability, the characters are individualized with a vivid distinctness, reminding one of the admirable pictures of those masters of English prose fiction, Dickens, Bulwer, and Disraeli. Then not only is the story well told, but it conveys a moral, which pervades the whole absorbing story, and improves while entertaining the reader. No better argument, if any were needed, against the reading of novels, was ever made than the production of this interesting, pure, and absorbing story of "Aunt Patty's Scrap Bag," by Mrs. Caroline Lee Hentz. It is published in one large duodecimo volume of four hundred pages, printed from large type, leaded, beautifully illustrated by Darley, and elegantly and substantially bound in red vellum, embossed in gold and black, price one dollar, and will be found for sale by all booksellers, and on all railroad trains, or copies of it will be sent to any one, to any place, post-paid, on remitting one dollar to the publisher, T. B. Peterson & Brothers, Philadelphia, Pa. For sale by P. Heinsberger, at his book store.

An Undeniable Truth.

You deserve to suffer, and if you lead a miserable, unsatisfactoay life in this beautiful world, it is entirely your own fault and there is only one excuse for you,—your unreasonable prejudice and skepticism, which has killed thousands. Personal knowledge and common sense reasoning will soon show you that Green's August Flower will cure you of Liver Complaint, or Dyspepsia, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual costiveness, dizziness of the head, nervous prostration, low spirits, &c. Its sales now reach every town on the Western Continent and not a druggist but will tell you of its wonderful cures. You can buy a sample bottle for ten cents. Three doses will relieve you.

The elementary mechanical powers are only five in number. Chemistry has already discovered nearly twenty times as many elements. Shall we permit fossils to frown down chemical discoveries, when we see such results as Dr. Harter's Iron Tonic, Liver Pills, and Elixir of Wild Cherry? For sale by all druggist. 2t

Business For Ladies.

Our attention has been called to a new article for the use of ladies, the invention of which has conferred an everlasting blessing upon every lady. We refer to the Queen City skirt suspenders for supporting ladies' skirts, the most desirable and beneficial article ever invented for the relief of women, many of whom have suffered years of miserable health caused solely by carrying the weight of a number of heavy skirts, completely dragging them down. Something to support ladies' clothing is absolutely necessary. These suspenders are recommended by our leading physicians to all ladies and young girls. Every lady should have them. They are sold only through lady agents. A splendid opportunity is offered to some reliable lady canvasser of this county to secure the agency of a pleasant and profitable business. For terms and territory write at once to the Queen City Suspender Company, 278 Clark Street, Cincinnati, Ohio. 2t

Liver is King.

The Liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, and the numerous symptoms that result from an unhealthy condition of the Liver and Stomach. Sample bottles to try, 10 cents. Positively sold in all towns on the western continent. Three doses will prove that it is just what you want.

SCHEDULE B TAX.

ALL wholesale and retail merchants are hereby notified that a privilege tax was levied by the Legislature of 1876-'77, of Five Dollars, (the same levied by county,) in addition to the Schedule taxes proper. Wholesale dealers are also notified that in giving in their purchases the law now compels payment on all purchases, made within the State as well as out of the State, (including timber, lumber, turpentine, spirits turpentine, rosin and naval stores of any kind and cotton.) All hotels, boarding houses, restaurants and eating houses are requrled by law to pay a tax of one-half per cent on the gross receipts. The tax will be due July 1and payable within the first ten days thereafter, on all purchases since the 1st of January, 1878.

All parties interested in the payment of Schedule B Taxes will save cost by attending to the same at once, as the law will be strictly enforced. Owing to the very small amount collected on the above Schedule for the past several years, and the numerous criticisms upon the returns given in by parties in business, I am prompted to request that you be careful in making up a correct an positive returns, thereby relieving me of the unpleasant duty enjoined upon me of looking over your books and investigating. In this connection it is especially and particularly enjoined upon you that all purchases made by you from, through or by brokers must be included by you in your returns.
